AGGRAVATED ASSAULT

DATE	TIME	LOCATION	NEIGHBORHOOD	SYNOPSIS
11/10/2021	1620	4523 BLUEHAVEN DR	GREENWICH VILLAGE	Intox driver charged with Agg Vehicle assault after hitting a 1yo.
11/12/2021	1645	1325 PRINCETON DR	UNIVERSITY ROW	Victim was shot at by unknown person driving a silver sedan.
11/14/2021	0239	2914 SALEM AV	COLLEGE HILL	Taylor Hines was arrested after she rammed her car into the victim's car while he was driving. Suspect had 4 kids in her car.
11/13/2021	2055	238 E MAPLEWOOD AV	NORTH RIVERDALE	Victim has an occipital bone fracture after being assaulted by her child's father and his new girlfriend.
11/13/2021	1600	800 CORNELL DR	UNIVERSITY ROW	Pregnant victim beat/punched by child's father.
11/10/2021	0330	1009 S EUCLID AV	EDGEMONT	2 victims cut while fighting with a group of males & females.
11/9/2021	1540	2030 CATALPA DR	FAIRVIEW	Victim stabbed by niece in domestic violence incident.
11/8/2021	1820	1333 W FAIRVIEW AV	FAIRVIEW	Victim shot in the legs in a carjacking attempt.

AGGRAVATED ROBBERY

DATE	TIME	LOCATION	NEIGHBORHOOD	SYNOPSIS
11/14/2021	0450	119 N JAMES H MCGEE BL	ROOSEVELT	Victim left his vehicle running at the gas pump when a white SUV dropped off 4 B/F's that got in his car and drove away. When he tried to pursue, in a friend's car, he was shot at from the SUV. His vehicle wrecked and all the suspects ran away
11/14/2021	1840	3295 W SIEBENTHALER AV	PHILADELPHIA WOODS	Family Dollar was robbed at gunpoint by a B/M, 6'02", 160lbs carrying a silver handgun.
11/13/2021	1230	1908 W GRAND AV	SOUTH DAYTON VIEW	Victim was robbed by 3BM's, of his vehicle and phone, at gunpoint when he met with them to buy an Apple Watch, in an Offer up transaction.

ROBBERY

DATE	TIME	LOCATION	NEIGHBORHOOD	SYNOPSIS
11/9/2021	1715	5030 EICHELBERGER AV	GREENWICH VILLAGE	Victim was assaulted by 2 BM's and his watch and keys were taken.
11/12/2021	2240	226 MCDANIEL ST	MCPHERSON	Victim was at suspect's apartment drinking when they began to argue, and her cell phone was taken.

RESIDENTIAL BURGLARY

DATE	TIME	LOCATION	NEIGHBORHOOD	SYNOPSIS
11/8/2021	1300	1903 MALVERN AV	DAYTON VIEW TRIANGLE	Unknown suspect entered the residence and took tools.
11/14/2021	0030	1637 W SECOND ST	WOLF CREEK	A known suspect entered this residence and assaulted victim. Suspect later arrested.
11/11/2021	0900	230 BASSWOOD AV	NORTH RIVERDALE	Unknown suspect entered the residence and took a TV, jewelry and nail polish.

BREAKING & ENTERING

DATE	TIME	LOCATION	NEIGHBORHOOD	SYNOPSIS
11/8/2021	0959	23 E NORMAN AV	NORTH RIVERDALE	A garage was broken into and trusses were stolen.
11/11/2021	0936	434 W GRAND AV	GRAFTON HILL	A suspect was arrested after breaking into a vacant residence
11/13/2021	1330	730 FAULKNER AV	SOUTHERN DAYTON VIEW	A suspect was arrested after breaking into a vacant residence
11/11/2021	0120	3401 N MAIN ST	HILLCREST	A suspect was arrested after breaking into a business.
11/9/2021	0257	1575 EARLHAM DR	PRINCETON HEIGHTS	A vacant property was broken into but nothing was taken. It appeared as if they spent the night.

MOTOR VEHICLE THEFT

DATE	TIME	LOCATION	NEIGHBORHOOD	SYNOPSIS
11/14/2021	0620	1715 MANOR PL	DAYTON VIEW TRIANGLE	The victim left their keys in the car and it was stolen.
11/12/2021	0200	2914 SALEM AV	COLLEGE HILL	The victim left their keys in the car and it was stolen.
11/11/2021	1314	243 SANDALWOOD DR	HILLCREST	The victim's car was stolen after it was left running and unattended.
11/10/2021	1845	2201 KIPLING DR	COLLEGE HILL	The victim's car was stolen after it was left running and unattended.
11/9/2021	0810	3636 GERMANTOWN ST	HIGHVIEW HILLS	The victim's car was stolen after it was left running and unattended.
11/9/2021	0900	3100 DANDRIDGE AV	WESTWOOD	The victim's car was stolen after it was left running and unattended.
11/9/2021	1903	48 VINCENT ST	RIVERDALE	Victim's vehicle was towed from this location.
11/9/2021	1400	55 VINCENT ST	RIVERDALE	Unknown suspect driving a flatbed tow truck attempted to tow victim's vehicle, but was chased away by owner
11/13/2021	1655	15 RIDGE AV	NORTH RIVERDALE	The victim's car was stolen after it was left running and unattended.

THEFT FROM MOTOR VEHICLE

DATE	TIME	LOCATION	NEIGHBORHOOD	SYNOPSIS
11/14/2021	1800	49 KNECHT DR	NORTH RIVERDALE	The victim's cell phone was taken from their unlocked car.
11/8/2021	2200	625 FIVE OAKS AV	OLD DAYTON VIEW	The victim's handgun was taken from their car.
11/9/2021	1903	48 VINCENT ST	RIVERDALE	Victim's license plate was taken from this location.
11/9/2021	2200	531 BELMONTE PK		The victim's passport was taken from their unlocked car.
11/9/2021	1700	2400 PHILADELPHIA DR	PHILADELPHIA WOODS	The victim's handgun was taken from their unlocked car.
11/8/2021	2000	3400 PRESCOTT AV	WESLEYAN HILL	The victim's laptop was taken from their unlocked car.

Take the **ME** out of crime

Every day, vehicles in Ohio are stolen because of being left unattended while running in driveways and at gas stations. Protect your children, pets and valuables:

LOCK IT before you
LEAVE IT

A homeowner's responsibility for

A Firearm in the Home

Safe storage of firearms

Children and firearms

Owning firearms for home security

Some of the topics to be covered

As a firearms owner, we are responsible for knowing how to properly handle and secure firearms in a safe manner in our home. *This class will help underscore the responsibilities each of us must accept when we bring firearms into our homes. Also covered are gun safety tips for:* • Realtors • Babysitters • Home Healthcare Workers • Repairmen

If you would like to bring this important class to your group, House of Worship, or association, or for more information, please contact:

Off. Ron Strehle- Dayton Police Dept.

* New Class 2021 * Schedule now!

20 Tips for Driving in Snow

1. Stay Home

If the weather is bad, stay home. Only go out if necessary.

2. Remove Snow and Ice

Before you clear off the windows, start the car, set the airflow to defrost, the fan speed to maximum and the temperature to high. The goal is for the driver to have an unobstructed view in all directions.

Carry a brush to remove snow on the vehicle's roof, hood, trunk lid, and all windows before driving. Use a scraper or a credit card if necessary, to remove ice on the car windows and mirrors.

Also, make sure the inside window glass is clean in all directions. It can take longer to defrost ice and snow if the rear glass is dirty. Also, check to see if the rear-window defroster is working. Be careful when cleaning the glass to avoid damaging the defroster wires.

3. Decrease Speed

Winter driving is all about slowing down, giving yourself plenty of distance between vehicles in front and to the side of your vehicle. Lower your speed to account for poorer [traction](#). A vehicle's tires will slide on snow and ice, so gently press down on the brake pedal to stop. Your tires will spin when accelerating, so gently press down on the accelerator to go. Remember, bridges and overpasses freeze first.

4. Minimize Distractions

There are always distractions that come into play as part of everyday driving – the temptation to speak on the cell phone, turn on a podcast, or anything else.

"You really need to focus your attention more so on what is going on out that windshield when the weather is bad," Phillips said. The risk of an accident greatly increases when snow and ice cover the street. "You have to be more cautious and vigilant. You also have to be aware of everybody else out

there on the road in front of you and peripherally, people who may not be practicing the same (safe) driving principles you are using.”

5. Use AWD and 4WD

Driving in snow, sleet and ice can be helped with all-wheel drive or 4-wheel drive. But, it’s no panacea for safe driving habits. Learn the difference between [AWD and 4WD](#).

Phillips describes the misguided belief of it this way:

“You can get a false sense of security thinking that because I have a 4WD (or AWD) vehicle I am safer. I have extra traction and extra traction is implied as extra safety,” Phillips said. “Hence I am going to speed, or I am not going to pay as close attention as I would in a sedan that doesn’t have those features.”

What those drivers fail to realize is that their SUV’s steering, braking, cornering and general maneuverability on snow, slush and ice are helped by AWD and 4WD. However, no matter what type of vehicle you’re driving, simply, slow down.

6. Keep a Full Tank of Gas

Fill up your gas tank ahead of the storm and keep it full. You don’t want to run out of gasoline if you end up stuck for hours in bumper-to-bumper traffic during a snowstorm, sleet or ice storm. When the tank gets half empty, fill it up.

7. Invest in Sand

You probably will get stuck in the snow this winter. That’s why it’s a good idea to keep a bag of sand or kitty litter in the car. Place sand or kitty litter under the drive wheels if you get stuck. Straighten the wheels and accelerate slowly.

Do not spin the tires because you likely will dig deeper into the snow, making it more difficult to move on.

8. School Your Teen Drivers on Driving in Snow

There may be a few exceptions, but probably close to 100 percent of us learned the basics of driving on dry pavement. To prepare teens for winter driving, take them to a parking lot that is covered with snow to demonstrate braking, steering, accelerating and decelerating. Do this before the driver hits the slippery streets on their own, Phillips said.

9. Respect Snowplows

Snowplow drivers focus on clearing roadways. At the same time, the snowplow driver may be on the radio getting instructions from a superintendent. As a result, it could be that peripheral vision gets obstructed by the flying snow and the truck's big snowplow. The driver may not see your vehicle. 'You need to be very cognizant of what they are doing,' Phillips said.

In addition, watch out when driving next to a snowplow on a major roadway. The snow that flies off the sides of the plow can hit your windshield making it difficult to see the road. To be safe, keep a distance from any snowplow on the road.

10. Watch for Deer

Keep an eye out for changing weather conditions and deer. November is the No. 1 month for vehicle collisions with deer, followed by October and December. "The erratic behavior of deer, unfortunately, is happening during the snow season," Phillips said.

11. Be on the Lookout for Black Ice

The pavement looks wet but it is actually ice-covered. Black ice is the term used to describe this condition. During the day the ice and snow may thaw, but as the temperature drops in late afternoon or evening, the water may turn to ice on the roadway. "Pay attention to changing temperature conditions," Phillips said.

Many vehicles post the outside temperature on the instrument panel display or elsewhere in the vehicle – as it gets close to or below freezing, beware.

12. Don't Use Cruise Control

Resist the urge to use cruise control when driving in snow, ice or slush. The road may be wet, but there still might be black ice or unplowed snow ahead.

These conditions could result in losing control of the vehicle when driving on cruise control because the system may not react as quickly as you can if you feel a loss in traction.

13. Invest in New Wiper Blades

Safety first! Streaky and dull wiper blades need to be replaced. Your vision through the windshield will look better only when wiper blades get replaced. Want to find out the cost to replace your wiper blades? Check out our maintenance and repair pricing tool and Service and Repair guide to help you price out new wiper blades.

14. Fill Up Windshield Washer Fluid

Frequently check the windshield fluid. Use a liquid that does not freeze and keep a gallon of the fluid in the vehicle. This will help keep you safe if you run out. Always keep an extra gallon in the car during winter.

15. Clean Headlights, Taillights

Lights can get quickly covered with snow, ice, and slush. Use a rag, tissue, paper towel or a newspaper to clean each light. As a driver, you want to see as far as possible ahead and you want drivers to see you, too.

A headlight's or taillight's visibility can be reduced by over 50 percent if the lights are covered with winter grime. Keep extra dry rags in the car for this purpose

16. Check Tire Pressure and Tread

Check tires monthly to determine that each tire is properly inflated and that each has a sufficient amount of tread. If the tread looks worn down, replace your tires.

"You are going to see a diminished performance in traction (and) the stopping distance will take longer" if there is very little tread remaining on the tires, said David Bennett, manager of AAA's repair

systems. "As you get into the ice and snow, you want to make sure that you have good traction, and that starts with your tires."

17. Inspect the Spare Tire

Don't be caught this winter with a flat spare tire. Check the air pressure on a monthly basis and carry a portable air compressor.

18. Keep Your Tire Repair Kit Current

Some automakers have replaced the spare tire with a tire repair kit. The kit consists of a small compressor, hose and a bottle of thick, sticky sealant that is forced through the valve into the tire. AAA recommends checking the kit's expiration date and replacing it when necessary. Some kits should be replaced every four years.

19. Don't Block the Radiator with Cardboard

AAA's Bennett says, don't do it. Some drivers in the Snowbelt regions place a large piece of cardboard in front of the vehicle's radiator. The purpose is to increase the temperature of the coolant flowing through the engine and radiator. This, in turn, increases the temperature of the air flowing through the heat exchanger, giving passengers a toasty environment.

"That is not a great idea because (cardboard) prevents airflow from coming across the radiator, which could cause the engine to overheat," Bennett said.

If the driver forgets to remove the cardboard when the outside temperature rises above freezing, there could be serious, expensive engine damage, leaving you stranded on the highway.

20. Carry Emergency Supplies

Plan for the unexpected. Pack non-perishable food, bottled water, blankets, a flashlight, cellphone, cellphone battery, first-aid kit, air compressor, tire-pressure gauge, a small shovel, jumper cables, extra jacket, boots, gloves, and your prescription drugs.

As above, a bag of kitty litter or sand that can be used for traction under a tire is also a good idea. It might also come in handy to keep a bag of environmentally-friendly ice melt in the car
