# 15 Church Security Tips and Resources for Pastors and Church Boards

- 1) Create a church security plan.
- 2) Install church video surveillance (inside and outside).
- 3) Never allow an adult in the Children's Area without proper identification.
- 4) Make sure to have a plan for Sunday services, in the event of a shooter, fire or other incident.
- 5) Ask a local police officer to do a walk-through of your facilities and offer feedback.

The reality is that we can never be completely sure that everything is completely covered. We *can* make sure we greatly reduce the security risks by being proactive.

- 6) Ensure emergency lights are installed and tested around the entire campus.
- 7) Train all your leaders on how to respond to emergency situations.
- 8) Define an official spokesperson for the church.
- 9) Create public and private wireless networks that use different routers.
- 10) Designate someone "official" to patrol the parking lot regularly.
- 11) Don't allow staff or volunteer leaders to work alone in the church building.
- 12) Test your security systems and routines at least annually.
- 13) Create a clear protocol for handling money. (Make sure people handle money in groups rather than alone.)
- 14) Get to know your local police, fire department, and paramedics.
- 15) Never assume everything is fine and doing well.

The list above provides some initial church security tips and resources for evaluating your church security systems. It is by no means exhaustive, but hopefully will give you some ideas to get started.
