The City of Dayton announces the newest investments of Dayton Recovery Plan funds, following approval of contracts by the City Commission. Investments of \$380,000 for OneFifteen and \$300,000 for Wesley Dayton were approved on January 11, 2023.

The Dayton Recovery Plan is a \$138 million framework for community COVID relief and investment for the future, made possible by the federal American Rescue Plan Act.

OneFifteen will use the proceeds toward the first phase of construction of its Houses of Hope program, while the Wesley Community Center will use its funding to improve services for the aging population in Dayton's Westwood neighborhood.

OneFifteen offers comprehensive services for individuals recovering from addiction, including an outpatient clinic, an inpatient residential treatment center, and a crisis stabilization unit. It operates a 4.5-acre campus on Hopeland Street in the Carillon neighborhood.

The funding for OneFifteen will provide planning, architectural design, land development and preliminary construction costs for affordable housing for participants of OneFifteen treatment services. OneFifteen will build two supportive housing units serving clients who are transitioning from treatment services to community life. The houses will be constructed near the OneFifteen campus on currently vacant lots and will be planned in cooperation with the Carillon neighborhood.

"We are honored to be partnering with the City of Dayton," said OneFifteen CEO Marti Taylor. "We can now offer additional safe, stable housing options to our patients, while at the same time supporting revitalization of the neighborhood. Each resident will continue to be surrounded by wrap-around services that support individuals in their recovery journey."

Funding for the One Fifteen award will be provided through the Dayton Recovery Plan's \$55 million Improving Our Neighborhoods component. This section of the plan focuses on improving housing conditions; provide in-fill and new housing; and rehab and repair.

Wesley Dayton is concerned about several issues facing the aging population in the Westwood neighborhood and nearby West Dayton areas, including elevated health concerns, lack of mobility, and unavailability of social opportunities.

Using the Dayton Recovery Plan funding, Wesley Dayton intends to renovate existing classroom space, implement an updated facility evacuation plan, renovate outdoor green space, and enhance information technology, all to strengthen its role as a catalyst, convener and connector for its community.

Funding for the Wesley Dayton award will be provided through the Dayton Recovery Plan's \$7.3 million Aiding Community and Small Business Recovery component. This section of the plan focuses on supporting community health and wellness, assisting small businesses and organizations, and providing educational opportunities.

OneFifteen

OneFifteen is a not-for-profit healthcare ecosystem dedicated to the full and sustained recovery of people living with addiction and co-occurring mental health concerns. The ecosystem offers a full continuum of care to meet the needs of patients and support them in full and sustained recovery. For more information, visit www.onefifteen.org.

Wesley Dayton

Founded in 1966 by the United Methodist Church, Wesley Dayton (formerly the Wesley Community Center) reflects a God-centeredness and sense of faith deeply rooted in an unrelenting commitment to social justice, equity, opportunity and dignity, believing all people are of sacred worth. Wesley envisions a safe, stable, engaged Westwood neighborhood, where success is the norm and individuals, families and businesses are empowered and prospering. Wesley Dayton serves as a catalyst, convener and connector in support of the citizens, businesses and organizations of the Westwood neighborhood and West Dayton to improve and enhance the physical, financial, social, emotional and spiritual well-being of the community. For more information, visit www.wesleydayton.org

About the Dayton Recovery Plan

The Dayton Recovery Plan is a once-in-a-generation opportunity to address the infrastructure, economic and equity issues that exist in the city by using a data-driven approach to analyze socio-economic, health, and demographic data to make informed funding decisions. These investments directly impact minority communities disproportionately impacted by the pandemic and long-standing economic and social inequities in Dayton. The Dayton Recovery Plan is our city's innovative plan to utilize Dayton's share of the American Rescue Plan Act (ARPA) funds. The \$138 million award is the largest grant in Dayton's history.
