The City of Dayton announces the latest investment of Dayton Recovery Plan funds following City Commission approval of a service agreement on Feb. 15.

A \$450,000 contract awarded to Michael Baker International will fund assessment of curb and sidewalk conditions in targeted areas. The City of Dayton Department of Public Works will oversee the contract.

Funding for the project is provided through the Dayton Recovery Plan's Improving Our Neighborhoods initiative, which focuses on City-led and managed projects that support healthier lifestyles through neighborhood revitalization efforts.

Michael Baker International will collect, inventory and rate curb, sidewalk and curb ramp infrastructure in Dayton Recovery Plan-targeted geographies: Five Oaks, Wolf Creek, Old North Dayton, Miami Chapel, Edgemont, and Carillon. These assets and associated information will be mapped and documented to assist in decision making and prioritization for reconstruction as needed. The survey results are expected in July of 2023, and construction plans will be determined after their review.

Michael Baker International won the award in a competitive process vetted by a multi-department, five-member team including staff members of the Department of Public Works.

The Dayton Recovery Plan is a \$138 million framework for community COVID relief and investment for the future, made possible by the federal American Rescue Plan Act. For a plan overview and updates, go to [daytonohio.gov/drps](http://daytonohio.gov/drps).
