Dayton Police to Change Procedures to Non-Injury Crashes

Release Date: Friday, July 14, 2023

Contact: James Rider, Police Information Specialist, 937-333-1201

Starting July 17, 2023, at 12:01 a.m., the Dayton Police Department's procedures related to responding to automobile crashes calls will be changing. Officers will continue to respond to these calls to facilitate an exchange of information between involved parties, however they will only complete an OH-1 Traffic Crash Report when the following circumstances exist:

1. Death/injury. (Injury is defined as being removed to a hospital by medics)
2. Hit and run or OVI.
3. Damage necessitating towing of one or both vehicles.

If an officer responds to a crash where the driver is not licensed, they will cite the driver for the appropriate violations.

-Why is the department making this change?

This change is being implemented to allow our officers to focus on high-priority calls and violent crime. This is a change in procedure as some departments in Ohio and nationally have been making over the past year. DPD officers will still respond to facilitate an exchange of information, but many departments are not responding at all to these crashes with minor damage.

-How many calls for service for non-injury accidents did the department have last year?

In 2022 Dayton Police Officers responded to 3,257 non-injury accident calls. The average time on each call was approximately 1 hour and 24 minutes. Ultimately this change is expected to collectively save our officers 12 hours per day to focus on high priority calls.

-What is the impact to the department and the public?

The change for our patrol officers should free up time in their days to focus on high priority calls and violent crime. While it is not a huge impact this is a step to help provide a better service to our community. For the public this should not have much impact. Even now you are not required to call police for a non-injury crash. The parties involved are only obligated to exchange information in the event of a crash.

It is also important to note that the wait time can be considerable for crashes with minor damage.

-What should I do if I'm in a crash?

If you're in a crash and your car is still drivable and there are no injuries, you should move the vehicles to a safe location and exchange information with the other party involved. You should also take pictures of the damage to the vehicles. In the exchange of information, you should get the name and address of the driver and the vehicle owner, the driver's license number, license plate number, and insurance information.

-What if the other driver doesn't have a license?

Officers will respond to the scene and cite the driver for the appropriate violations.
