

Jeanette Ghand named manager of Division of Management & Budget

Release date: Thursday, June 6, 2024

City Manager Shelley Dickstein announces the appointment of Jeanette Ghand as manager of the Division of Management & Budget.

Ghand, reporting to the director of the Department of Management & Budget, will develop and implement budget and management control systems, policies, and practices supporting efficiency and effectiveness in City of Dayton operations. This work assists the Office of the City Manager in allocation of fiscal, human, and tangible resources.

Her duties will include managing special initiatives and preparation of evaluation and impact reports. She will also monitor federal, state and local legislative and economic issues affecting City budgeting and policies and recommend related actions where needed.

Ghand joined the City of Dayton in June of 2020 as a senior management analyst, and her responsibilities have included management of the Dayton Survey, an annual report of the opinions of thousands of Dayton residents regarding neighborhood life and City services.

Before her City employment, Ghand served the Montgomery County Juvenile Court for two years as grant coordinator/data analyst and Greene County Public Health for nearly five years as accounting program manager. She earned an M.B.A. at the University of Dayton (2013) and a B.S. in Allied Health Professions at The Ohio State University (2011). She has also earned a Six Sigma Green Belt Certification and a University of Dayton Emerging Leader Certificate.

"Jeanette's skill and experience are already supporting the City of Dayton's commitment to maintaining and applying well-managed data and decisive program evaluation," Dickstein said. "As division manager, her work will further contribute to the Dayton community as we continuously evolve City services and operations."
