

Update on Condition of Detective DelRio

Release Date: Wednesday, Nov. 6, 2019

Contact: Cara Zinski-Neace, Police Information Specialist, 937-333-1201

Chief Richard Biehl would like to provide the following update on the condition of Dayton Police Detective Jorge DelRio:

"Detective DelRio remains on advanced life support at this time and in grave condition. The injuries he sustained on Monday evening when he was shot are tragically not survivable."

It's been noted numerous times over the past few days, by myself and his brothers at the Drug Enforcement Administration, what an outstanding Police Detective and TFO Agent Jorge DelRio has been for the past three decades. His contributions to the community and to saving lives by trying to rid the streets of Dayton and beyond from harmful, illegal drugs are well-known in the local and regional law enforcement community.

Not surprisingly, after a life of dedicated public service, Jorge will continue to give of himself to the greater community by being an organ donor upon his death."

The Dayton Police Department will make a formal announcement when Detective DelRio succumbs to his injuries.
