

Traffic enforcement blitz planned by Crash Reconstruction Unit

Release date: Monday, Feb. 3, 2020

Contact: Cara Zinski-Neace, Police Information Specialist, 937-333-1201

The Dayton Police Department Crash Reconstruction Unit, along with the Ohio State Highway Patrol, the Trotwood Police Department and the Montgomery County Sheriff's Office, will conduct a joint traffic enforcement blitz on highway systems in Montgomery County on Wednesday, Feb. 5.

The blitz is designed to promote compliance with traffic laws and prevent hazardous traffic situations, in hopes of preventing or reducing the number of traffic accidents. The blitz will be spread across the area's main thoroughfares, including Interstate 75, U.S. Route 35, SR 4, and SR 49 (Trotwood Connector).

Increasing safety and reducing traffic crashes and deaths are some of the top priorities of the Dayton Police Department. There were more than 4,400 traffic accidents in the city of Dayton in 2019. Many of these crashes occur when speed, distracted driving, and reckless driving are contributing factors.
