

## Community Golf Course reopening Friday

*Release date: Wednesday, May 13, 2020*

---

Community Golf Course will reopen this Friday, May 15 after being closed since early April due to the coronavirus pandemic.

During the initial reopening, golf carts will be limited to one person and tee-time intervals have been increased. We are asking everyone to wear masks in common public areas and maintain social distancing of at least 6-feet apart. Additionally, bunker rakes, ball washers, water fountains and other commonly touched items have been removed from the course. For a complete list of the new rules and guidelines please [click here](#).

“We are taking every precaution to ensure our golfers and staff are protected,” said Robin Williams, Director of Recreation and Youth Services. “We want to encourage residents to come out and enjoy the course, but while you are, it’s imperative that you stick to the new safety precautions we have in place.”

Last week the City announced the permanent closure of Kittyhawk and Madden Golf Courses. Pass holders were mailed a packet which outlines the process for a refund due to the closure of these courses. Those interested in a refund have until Friday, May 29 to submit a request. Refunds will be prorated based on the number of rounds played this year.

Official league play has been tentatively scheduled to begin on Monday, June 22. We will be accommodating leagues and volunteers from both Kittyhawk and Madden. Any leagues interested in playing at Community is encouraged to call the ProShop at 937.293.2341.
