

**On-airport economy parking lot:
Spaces available at \$4.95 per day during construction**

Release Date: Friday, April 7, 2017

Contact: Linda Hughes, Marketing Manager, 937-454-8200

The best way to save time and money while traveling out of Dayton International Airport is to park on-airport. The reconstruction of the Economy Parking Lot will not interfere with travelers' valuable time, and at just \$4.95 per day and no hidden fees, you will be sure to have a stress-free experience to begin your travels.

With over 2,200 spaces available per day during construction, travelers are always guaranteed a spot—if needed, signage on Terminal Drive will easily direct you to the Overflow Lot, also at \$4.95 per day. The DAYrider courtesy shuttle quickly transports parking lot users from the shuttle booths in the Economy Lot and Overflow Lot to the airport's front entrance. An abundance of signage is provided to help guide you.

Whether for business or pleasure, on-airport parking is the most affordable and convenient way to start your trip. Other on-airport options include the garage, Long Term Lot (also with the DAYrider courtesy shuttle) and valet parking.

"The Airport and our staff value all our patrons," said Terrence Slaybaugh, Dayton International Airport director, "and providing the best customer service along with the most convenient, affordable and safe parking is our continued priority."

For additional parking information, call 937-898-1555. For more information about Dayton International Airport, visit flydayton.com.
