7/6/2021	Northwest Rec	Salem Avenue traffic issues; property ordinance enforcement; art work in public viewing- benefitis artists and enhances neighborhoods
7/6/2021	Northwest Rec	Prioritize youth internship, use Sinclair or DPS. Youth would learn skills, earn money, keep busy and out of trouble. Youth could find other employment readily because they would have skills. Use retirees to train youth. RealtorGain quality housing for people to buy gaining equity and real wealth for them.
7/6/2021	Northwest Rec	Invest (again) in Priority Boards that would [help] the city to hear problems that affect the communities. Traffic control to address speeding on Salem Ave.

7/19/2021	Wesley Community Center	putting speed control blacktop on streets reduce speeds on residence street some streets cars speeds are 50 to 60 mph westwood ave if any kids cross the street they might be hit or killed
7/19/2021	Wesley Community Center	with the use of these funds we would be able to fulall is mission to educare and aduocate for the black community
7/19/2021	Wesley Community Center	used funds for the east +west side of the city were ever it needed just like downtown dayton
7/19/2021	Wesley Community Center	put the new train station + come on the west side of dayton
7/19/2021	Wesley Community Center	I feel that is a great need for affordable free meatal heath services for africe americans in montgomery county ohio
7/19/2021	Wesley Community Center	as a non-profit organization we would like to use the funds to open a community center and mental heath hub
7/19/2021	Wesley Community Center	life skill programs for our youth investments in returning citizen housing education job training
7/19/2021	Wesley Community Center	The city could use some of this money, I believe, to create gardens for food in the empty places left by torn down vacant housing. Some money could be used to rehab emply houses and resale or rent to low income. Empty schools could be rebuild/converted for youth/other community centers.

7/9/2021	Online Survey	Highly support assistance to the arts, such as Dayton Performing Arts Alliance, Dayton Art Institute, and Dayton History.
7/9/2021	Online Survey	Projects that support outreach and targeted health education/health interventions to our BIPOC communities especially new arrivals - refugee and immigrant- and supporting the training of health professionals in both public health and private health systems to learn how to better provide healthcare that breaks the cycle of health disparities
7/9/2021	Online Survey	Please place priority on spending money in areas where there is a return on investment. So many of the building in Dayton are beyond repair. Demolish and start over.
7/9/2021	Online Survey	Use funding to increase resources in public preK-12 schools, provide access to people with disabilities, language interpreters for all the languages spoke in Dayton, to increase the affordability and decency of Dayton's housing, to integrate neighborhoods.
7/9/2021	Online Survey	Households with children
7/9/2021	Online Survey	Fund the design and build for the Dayton Bike Park at Welcome Park in the Carillon Neighborhood area. Invest in the quality of life amenities for youth ages 12-20.
7/9/2021	Online Survey	It is important that residents have safe and affordable housing to live in, and job and businesses that support above living wages. Let's take care of the basic and create opportunities to build wealth for families so that folk aren't so dependent on the system.
7/9/2021	Online Survey	The city needs more street sweepers and clean-up operations. Trash is constantly piled up in the streets, particularly west of the river. Crime also seems to be going up.
7/9/2021	Online Survey	Support for the Dayton Performing Arts Alliance - high priority; this is a Dayton treasure that brings in people like me that do not live in Dayton to spend \$\$ in Dayton. The DPAA is a pillar for cultural civility and pride.

7/9/2021	Online Survey	I believe Keowee Street from Xenia Ave to Monument Ave should become a boulevard with trees and grass running down the middle of this wide stretch of concrete. This would soften the landscape, be helpful to the environment, slow traffic and make it pedestrian friendly. The impact of this improvement at the Fifth Street intersection would greatly improve the safety for pedestrians linking the business sections of the Oregon District and St. Anne's Hill as well as the Stivers High School students who cross there as well. The cars that exit 35 often are prone to speeding and running the red light. The street is too wide to cross in a safe amount of time. A boulevard would visually suggest to the driver they have entered a space that is different than the highway and they should slow down.

		Invest in areas of town that have been struggling to attract businesses and residents- with a specific emphasis on black and brown neighborhoods. Put some money into the school system so that DPS kids have access to the same education that kids in the suburbs get so that parents don't feel compelled to leave the city limits. Put money into parks so that communities across the city have safe/accessible places to gather, meet their neighbors, and have access to programming like community movie nights, local food festivals, weekly farmers markets, art shows, or workout classes. Create a few new dog parks. Bring in an affordable community pool and/or splash pad. Get rid of the old rusty purple dinosaurs on the playgrounds, and bring in exciting and fun new equipment. If people can physically see the changes made in the city, they will be more compelled to live there. Invest in making downtown Dayton more green- both with it's energy resources and with incentives to put indigenous plants on rooftops and sidewalks.

7/9/2021	Online Survey	Money has been spent to revitalize historic buildings such as the Arcade, the Lofts, etc. I would like to see a contribution from the City for the restoration and preservation of Woodland's Historic Chapel. It is the 180th Anniversary of this institution. One of the oldest if not the oldest next to the City of Dayton itself. It is the keeper of Dayton's most famous and infamous residents as well as the hard working folks who made it Great 'n Dayton. I was asked to fill out this survey by one of the Arts organizations who has received monetary support throughout the pandemic through a variety of resources. The cemetery is its own entity. Our staff took pay cuts to keep us going and yet we do not qualify for COVID relief funding due to our business status. We are finding it difficult to employ additional workers due to other stimulus packages. Our fundraising has come to a near halt due to the tornados, mass shooting and pandemic relief funds set up to assist citizens in need from those incidents. Funding for projects like the restoration and preservation of the Historic Chapel at Woodland are in dire need of funds to complete the project. The city has thrown money at projects less worthy and just as worthy. assistance to Woodland will strengthen the University of Dayton Neighborhood that surrounds the cemetery and keep three remaining Richardsonian Romanesque buildings, built in 1887, in the city. It will help to preserve the 17 Tiffany windows in the Chapel, as well as the hand-cut Tiffany tiled floor. It will assist in preserving the limestone and sandstone structure for another 130+ years. Please consider a grant to Woodland Arboretum Foundation for its restoration and preservation efforts. The cemetery is not going anywhere and many of those resting peacefully within: the Wright brothers, Erma Bombeck, Paul Laurence Dunbar, Charles Kettering, John Patterson, Gov. Cox, Col. Deeds and the 111,000 other residents will surely be grateful. Thank you for your consideration!

Do not use the funds to create new funding for programs that cannot be sustained. In that event when these funds are used up there will then be a funding gap that will need to be replaced by new money. There are probably physical infrastructure needs in the city that can absorb these funds. Use it as a source of infrastructure funding and spend it over a 5 year period to address those permanent improvements.

7/9/2021	Online Survey	Support for the Arts. The Arts is Dayton Strong - we are blessed with organizations that outperform peers in larger cities not only artistically, but also financially - by merging organizations to save on administrative expenses (DPAA). They occupy our downtown buildings, provide good downtown jobs, bring people downtown for performances who typically dine out downtown prior, and broaden the education of our schoolchildren. Let's continue to support them and make them more accessible to our less fortunate residents.

7/9/2021	Online Survey	I believe that support of the Arts Community in Dayton is very important. the Arts culture and education of our community is critical to foster the type of environment that I believe is important to maintain and enhance. Can you imagine Dayton without the Arts?
7/9/2021	Online Survey	
7/9/2021	Online Survey	My highest priority would go to assisting the arts organizations and performing artists impacted by the pandemic, especially those of the DPAA.
7/9/2021	Online Survey	Support for the Dayton performing arts is essential to sustain and improve our region's focus on Dayton City.
7/9/2021	Online Survey	Bring back speed/red light camera's. More camera's needed within neighborhoods. Speeding, ATV's, dirt bikes, - Dayton needs to get tougher on misdemeanor crimes and the negativity it creates throughout the city. The lack of peaceful living in the City and the loudness does not increase growth. People will leave if they can and those people leaving are usually the people just hanging on trying to pick up trash, plant flowers adding something to their neighborhood - constantly fighting the lawlessness that continues to seep within their neighborhood.

7/9/2021	Online Survey	Vacant and abandoned buildings and houses should be demolish for safety reasons and because it damage the view of the neighborhoods. Trash removal on some neighborhoods should be a must and fine people that litters and also fine them if they can't keep their premises under the city codes because we need to better our neighborhoods. We also need for our safety to keep officers near our traffic lights and intersections because people don't respect signs or lights and I see this very often in many neighborhoods. Everybody it doesn't matter in which area of Dayton drive by or lives by should feel safe and should have a better neighborhood environment. I just bought a house in Wolf Creek neighborhood which I am completely remodeling inside and outside and I am part of the community that is interested in Dayton renewal as well. I am also waiting response on Adopt an area program and I'm building a free little library. I am trying to help making a difference in my area if everybody help we can make this work.

7/9/2021	Online Survey	can any of the funding be used to convert the entire street grid in downtown Dayton back to 2-way streets? Multi-use trails and improved access to them throughout the city should be in the spending list. Finally, funds should be set aside to establish a program that works to improve home ownership opportunities for people of color. This will require eligible uses like property acquisition, rehab improvement, mortgage readiness and homebuyer & homeowner education programs, down payment assistance, the establishment of loan guaranties, etc.

7/9/2021	Online Survey	Question 9 was hard to answer: What you describing. More urgent care-type facilities to serve the public? That would be good. Using medically trained people to respond to certain emergencies? Good. What kind of physical buildings to prevent crime? Money should be used to demolish abandoned and damaged buildings, and clean up the environment/city so we can then begin productive and appropriate re-development. Use some of that empty space for community gardens, and small playgrounds. Every neighborhood should have maintained green space. Help the very poor improve their properties. Use money to prosecute bad landlords for failing to maintain property. A clean, well kept environment encourages and communicates care and will spark more community involvement. It's a place to start. Use some money to better train police to engage with the public, to get to know people, and to have more tools for dealing with volatile situations than shooting, tasing or abusing people.

7/8/2021	Online Survey	Accessibility to ages, gender, races, and disability. Many people for have physical disabilities can not be taken to businesses or parks due lack of bathrooms having no areas to address those needs. This prevents families with these adult family members having to make special arrangements which sometimes includes state funds being paid to supervise them when a bathroom area is all that is needed. People who have IBS, Crohns Disease, Physically disabled adults who need an area to remove an adult diaper and clean not to mention the thousands of families who have children who are total care have no such facilities in stores, museums, and medical facilities. Setting aside some funds for just one stall is expensive and small businesses it is out of reach. To help with would just be amazing.

7/8/2021	Online Survey	Please support the arts in Dayton whose performing members are often in financial need, ex. DCdc and the ballet
7/8/2021	Online Survey	The restaurants will survive and thrive if their food, service, and ambience is adequate. Our roads are terrible, 3rd world. Whatever else is done better roads are safer and raise citizen pride. I would support a second funding with a specific gasoline tax (5 cents a gallon?); money earned cannot be spent on anything else. Surplus could be used to further beautify the city, more trees.
7/8/2021	Online Survey	Support for the Dayton arts is very important. The DAI and the Dayton Symphony are the pillars of the community and help create the kind of city we want.
7/8/2021	Online Survey	The Arts are a very important part of the Dayton community and has suffered also and their needs also need to be addressed.
7/8/2021	Online Survey	Consider support of the arts to support growth within Dayton and the surrounding community.
7/8/2021	Online Survey	The arts are one of the pillars of Dayton; please support Dayton's performing arts organizations and venues!
7/8/2021	Online Survey	Funding is needed for the arts (museum, performing arts) that make Dayton a more livable city. They affect people of all ages and ethnicities and improve lives. These areas have been devastated by the "black hole" of 2020 and need help.
7/8/2021	Online Survey	I'm an advocate for the arts. Dayton has a fantastic arts community that brings a lot of joy and educational opportunities to the Gem City. They've also been hit exceptionally hard, since they were the first to close and last to reopen. I would be very happy seeing funding for towards the DPAA and VTA.
7/8/2021	Online Survey	The arts is a big deal here in the Dayton area. Please support the arts to ensure they don't go away.
7/8/2021	Online Survey	All performing arts were severely hit affecting the artists/performers, union support crews, administrative and operational staffs as well as out year planning for performances. Recovery will take at least a year if not longer from the sudden cessation of all planned performances last year and slow restart this fall season. Most seasons are set 18 months in advance so unknown funding and performance schedules severely impacted planned revenues stopping and then delaying the restart of revenue generating events. The next 6-9 months will be critical financially for most arts organizations and any support they can get to help replace lost revenue is critical to their continued operations into the future.
7/8/2021	Online Survey	I support funding for arts organizations in Dayton. The arts benefit everyone.

Kindly, provide a large percentage of the government incentive money to present to the outstanding Arts in the Dayton area.
7/8/2021	Online Survey	You need to provide support to Arts Organizations that have suffered in the Pandemic and that draw business to downtown Dayton. Without them Dayton will be much poorer financially and spiritually.

7/8/2021	Online Survey	First of all. Please do not invest any of this money in the Dayton Police. If you are investing in public facilities and ways to decrease crime please do it with a progressive mindset. Defund police and fund schools and social services. So much of Dayton is being rebuilt by giant corps who have \$\$\$ as their main motivation. Please find a way to support Daytonians in their efforts to build in Dayton. New retail and restaurant businesses cannot afford the price tag that comes with these newly developed spaces. Finding a way to activate retail and restaurant space that works with small businesses in a reasonable way must be a priority if Dayton is going to continue to grow. Any money invested in parks and recreation must be spent to enhance the West Side and North Side of Dayton. Please do not do more to develop the parks and rec facilities in the southern and eastern suburbs. These areas do not need investment. Creating a grant program that benefits small start up retail businesses would be great. Creating grants for building owners who own buildings that need to be repaired would help Dayton thrive without the need for big corps.

7/8/2021	Online Survey	Public transportation! More buses like the Flyer that go between downtown and various neighborhoods
7/8/2021	Online Survey	I also see major city projects as a key to investment in our community. Moving forward with already defined plans by UDA around the various city sections. Including the Inner East redevelopment around 3rd street and The Flight Line development to help improve living and connecting the city in New ways
7/8/2021	Online Survey	It would be great if there can be updated bathrooms in public facilities to include changing stations for the adult disabled population. Those who are diapered and are not able to be transitioned to a toilet often have to be changed on the ground in emergencies. A unisex changing station would be a game changer for hygiene and safety.
7/8/2021	Online Survey	There is a huge need for Adult Changing stations within the city at parks, public buildings etc. Also, the City of Dayton needs to come up with a plan to keep the Prarie land at the corner of St Rt 40 and Frederick Road. Turn it onto a park, not a housing development. Keep it rural and a place everyone can enjoy. We don't need more houses and businesses there.

Communities may use Fiscal Recovery Funds to facilitate access to resources that improve health outcomes, including services that connect residents with health care resources and public assistance programs and build healthier environments, such as: Evidence-based community violence intervention programs to prevent violence and mitigate the increase in violence during the pandemic. In addition to funding domestic violence services overall, some additional specific services provided by domestic violence programs qualify for funds under separate provisions under the ARPA.

7/8/2021	Online Survey	It may be unpopular in some areas, but we need more police patrols in Dayton. We have a massive drug problem - users and dealers. No one wants to live in Dayton when they know they may end up being shot by a dispute between dealers and/or users. It's a problem that cannot be solved by regular citizens or, as some suggest, "social workers". Clean it up and maybe the rest of these issues will resolve themselves.
7/8/2021	Online Survey	The vacant and abandoned properties is a major priority throughout the city. The animals, raccoons, groundhogs, opossums, snakes has increased in my neighborhood. The groundhogs are digging tunnels under my house and the abandoned properties. The grass is not cut by the city at a lot of these properties. Houses are abandoned too long. There needs to be some type program in place that puts these houses up for sale or demolished after sitting abandoned for a year. Some houses have been abandoned for 5 years or more! Weeds are growing from cracks in the streets and curbs. Trees and shrubs are overgrown in alleys and at the abandoned houses. They spill over to occupied homes. Animal control is needed to address the large numbers of groundhogs, raccoons and opossums due to the abandoned houses.
7/8/2021	Online Survey	Street maintenance should be a high priority. Dayton main streets are deployable. It cost residents hundreds if not thousands of dollars a year in car maintenance. No wonder there is a tire shop every 2 mile radius.

7/7/2021	Online Survey	1) Dayton needs to use ARPA funds to "balance the goals of economic development and cultural development". Specifically, the city can advance heritage preservation and cultural tourism associated with "funk music". Kansas City successfully did it with the 18th and Vine Jazz District. 2) Dayton could create a "Fresh Food Financing Initiative (FFFI)" with some of the ARPA funds in order to bring grocery stores back to existing communities. In Pennsylvania, the FFFI leveraged \$8 for every \$1 in public investment. 3) Dayton needs to use ARPA funds to advance "environmental justice" in communities that have been overwhelmed by past policies of redlining; highway construction; and urban renewal. "Environmental justice solutions combined with planning" provide communities with a pathway out of poverty. The ReGenesis Project in Spartanburg, SC is a \$300 million dollar success story. - <a href="https://www.michaeldbaker.com/MDB_WP_live_site/wp-content/uploads/2021/03/ReGenesis-Report.pdf">https://www.michaeldbaker.com/MDB_WP_live_site/wp-content/uploads/2021/03/ReGenesis-Report.pdf</a>

7/7/2021	Online Survey	Don't support businesses who pay poverty wages to families. This is going out of the frying pan and into the fire. In many cases, the minimum wage employee will have Title XX daycare assistance at roughly \$700 per child per month, Medicaid at roughly \$360 per person, Section 8 at about \$800 to \$1,200 per month, SNAP at up to \$194 per person, and further assistance just to go earn a paycheck that doesn't add up to 20% of what the business is costing the government to secure poverty workers. I'm not against assistance for needy people but there is some assistance I feel is more of corporate welfare than anything if it is going to perpetuate a job opening for a business that never improves the outlook of workers until they are forced into it. Now is the chance to force them into it. I'm saying we should prefer jobs that pay better on behalf of public assistance recipients and middle-class taxpayers. They will never get their taxes cut if we never find solutions to poverty. If we keep growing poverty, we will have more poverty and people will keep needing assistance. Even if one worker moves to a better job, another person will soon come fill the vacancy. If we prefer business that wish to pay prevailing wages, people will increasingly move toward self-sufficiency as a community, regardless who is clocking in from day to day. In some cases, society is better off to just pay poverty workers to stay home because when they are working, the expenses go up more than their paycheck brings in and due to the paycheck, benefits coming into the household get cut. It would be a middle-class tax cut in a sense to transform assistance recipients into taxpayers because the burden goes down while the tax collection goes up. Policy that opens the door for poverty jobs is one that needs to managed intelligently. This funding just cannot get to be evenly distributed. Water the flowers and pull the weeds. Above all else, we need you now to make our garden grow. Any Daytonian with an increase in wages will pay more city tax, be happier to live here, and therefore make a tremendous contributions to moving our whole city in the right direction. At this time,, some seemingly unimportant decisions have the potential to produce great outcomes down the line. Please don't finance something you feel uneasy about. This city has an abundance of dead-end jobs, poverty wages, multibillion dollar business, and a dwindling middle class. Let's water the flowers and pull the weeds. Thank you.

Security cameras on telephone poles that are 24/7 like other cities. Don't ask just put them up. Do other cities like NYC or The UK care if you like their security cameras? Hell no they don't. Too many departments are barely making do and just getting by. This would include as far north as Piqua, Troy, Tipp City I, etc with connections to the major schools such as UD and Wright State and the Dayton Int'l Airport. With increasing use of land for light industrial/shipping the Maimi Valley needs to offer better/faster transit to tap the populations around the valley and make it easier to commute at distance. This also would allow higher tech corporations to see Dayton and the Miami Valley as investing in the community allowing for larger corporations to contribute to both job creation and payroll taxes along with city taxes even if given substantial credits over a 5/10 year period.

7/6/2021	Online Survey	Dayton must address core issues that destroy families. Parents must be employed in meaningful careers whether trades or professions, as that provides greatest leverage to children observing functional positive life-values; and this will contribute to the general welfare of the community by growing tax base and reducing crime and safety-next expense. This must be the focus from which Dayton will ignite it's future. 7/6/2021	Online Survey	Can these funds be applied to bring new businesses to Dayton? The city desperately needs a large grocery store; I drive to Kettering to get my groceries. There also needs to be more businesses: pharmacy, office supply store, pet store, dry cleaner, etc. for day-to-day life. And a dog park...it sounds like a school is going to be built on the Deeds Point dog park. Pet owners need space for their dogs to run, rather than being fussed at for when their dogs pee on bushes. 7/6/2021	Online Survey	The city of Dayton needs to focus thawed funds like a laser on tearing down and hauling away blighted and abandoned properties. If there is anything left, the focus should shift to infrastructure repair (roads especially, but also sidewalks, etc). After that it can begin to make improvements that would promote healthier lifestyles and a more active city. It must be this way: no one cares much about a fancy new walking path if it takes you past a bunch of dilapidated and boarded up houses. Nee roads are nice, but they don't do much to improve a city when they ferry passengers past crumbling old warehouses.

Black Daytonians have been devastated by a history of redlining, discriminatory housing and banking practices, an under-resourced school system and other forms of systemic racism. If there is a legal barrier that would prevent payouts to only Black resident's, I propose a direct payment of \$500 a month to 2,300 of Dayton's residents of any race who can demonstrate a need. The cost of such payouts would be 13.8 million dollars, a mere 10% of what Dayton is receiving from the federal government as a result of the ARPA. Direct payments are less paternalistic than other programs. Supplemental income can substantially increase a family's standard of living

Why not rules to prevent so much investment coming from out of state? Rents went up all over the valley after the tornadoes, & the city has not done enough to protect renters. I rent from slum lords. The property management company is probably criminal. A friend contacted the owners of the house where I live, in California, to ask them about selling the house. They admitted to knowing nothing about the poor condition of the house & laughed at my friend. When later we spoke, I said, I paid 10k to live here for a year, in a house that was valued at 20k just some months ago-- of course they have no interest in selling. Turning a blind eye to the problems of the house would be much more difficult if they weren't so far away! Or if the city had some way to hold them accountable, or some incentive or rule to keep residents safe & even encourage ownership. There are a lot of houses that are suddenly under construction. Who is investing? This should be important to the city leadership & community.

7/2/2021	Online Survey	I would love to see these funds be used to help everyone no matter what race, but I do think our small business need alot of help and would love to see up and coming parts of dayton helped out (Wright dunbar/west 3rd street) I think individual neighborhood should also be allocated funds based off of number of residents and the neighborhood associations can vote on what they would like to use the money on to invest in their neighborhood.
7/2/2021	Online Survey	I think fixing the roads, improving walkability in many places and demolishing vacant buildings are necessities for improving Dayton and will likely also result in a reduction in crime. It is entirely too common to see boarded up, vacant buildings and homes particularly in inner, west and northwest Dayton. This not only looks unappealing, but it also creates an easy location for crime to take place such as dangerous IV drug use, drug production and drug sales. By removing and demolishing these buildings it may have an impact to reduce crime, as well as provide addition space for gentrification. Another issue of note is that Frederick Pike, particularly north of Needmore Road, has become a hazard to many. With no sidewalks and broken asphalt this area is not walkable for many residents who do not have a vehicle and must walk to the bus system. In addition, probably an average of one motor vehicle accident per month has occurred recently on this road due to broken asphalt and very little space between the edge of the road and the line painted on the road. The roadway itself is thin, and with oncoming traffic causes people to react by moving over a bit to create room but easily falling into the holes created by broken asphalt and being sucked into the tree line. This is dangerous in many ways, and yet there has not been any prioritization over this repair. It should not take someone's life for this repair to matter. Creating a better, safer Dayton starts with basic improvements of the area. Basic improvements have such huge impacts on the people living in the area and improve quality of living by providing safe environments. In doing so, people are also less threatened by areas on this side of town and are more likely to visit, move here and open businesses here. The red lined division within Dayton needs to come to an end, and that begins through the prioritization of improving the neighborhoods. It's time to finally clean up damage from the tornados, demolish vacant buildings and provide ample, safe space for people to walk and get to jobs, build new homes and businesses and to improve their quality of life.

7/2/2021	Online Survey	I am working with the Scott Koorndyke and others at the Arcade to develop a Homeland Security Center with a SCIF. This would include an alert system for security professionals to inform them of specific events (robbery, assaults, etc) so they can be aware and prepared. It will also serve as a HUB to connect students with local universities homeland security programs, research, and researchers a chance to work together with practitioners. The center will provide trainings, seminars, advising, and more. The SCIF will offer sensitive information to be discussed without fear, and depending on space, can offer long term storage of classified items, and rental work space. At \$2000 a day for room rental space, the SCIF will pay for itself. The SCIF can be created with a patented wallpaper product decreasing the costs by over 50%. This Homeland Security Center would help create a stronger community and I believe a good use of some of that \$138 million in federal #ARPA funds. Terry Oroszi.

People and businesses will not be drawn to the city if our roads and side streets resemble a third-world country. Third priority should be given to cleaning up our neighborhoods, eliminating the blight that drives people to the suburbs. We need to help encourage pride in our community. Safety programs, improved streets and roads, and reducing un-maintained housing stock will help. Property owners must be held accountable for maintaining the conditions of each property.

7/2/2021	Online Survey	It will be hard work and take more time and money upfront but I am support things like building community relationships, providing easier access to mental health (and thereby fighting against drug addiction and helping the person—not the war on drugs), fighting against systemic racism, fighting against circular poverty, and fighting against food deserts. The list can go on, but each of these points out problems where money has to be used to invest in our Dayton community, no matter who is in need. Thus I am completely against funding for things like Shotspotter, and I do not support no-knock warrants. I do not believe that more police presence means less crime. I believe that the Dayton Police Department should continue to partner and further explore partnerships with agencies and teams like the Crisis Intervention Team and mental health services. I fully support community gardens, beautification, and green spaces (see I Love West Dayton and FiveRiver Metroparks), but do not support gentrification. Ask the marginalized what they need, but also provide them a way to answer and to do so in a timely manner. Dayton is amazing and I would love to see it become more than we could even imagine!

7/2/2021	Online Survey	In order for the Dayton community to thrive and continue to attract people and businesses to Dayton we must help maintain the cultural and educational amenities that enhance our lives. Included in these are arts and cultural organizations such as the Dayton Art Institute, the Boonshoft Museum of Discovery, the Dayton Philharmonic, the Dayton Ballet, the Dayton Contemporary Dance Company and educational resources such as UD, Wright State, Sinclair, Dayton History and programs such as DECA. Five Rivers MetroParks has also provided healthy and safe recreational places for people to get outside and enjoy nature and exercise. These are just a few that warrant consideration, but all are truly an important part of the "fabric" of life in Dayton. Yes, maintaining the infrastructure is important, but without successful organizations such as the afore mentioned, we will ultimately lose the opportunity to attract people here. There needs to be a balance as we consider our many needs.

I think Dayton is proud of its "affordability," but our housing stock is old and new housing is almost impossible (in terms of financially logical) since other housing is so cheap. 7/1/2021	Online Survey	Please invest in a local not-for-profit automobile assembly plant. With this investment all other priorities can be addressed with the increase the areas wealth.
		I think your highest priorities right now are going to be investing in opportunities for safe and interesting outdoor (or indoor) community amenities such as neighborhood parks that may be in disrepair or creating neighborhood parks in places where buildings once stood and helping to create avenues for adequate affordable housing. An example would be what Lincoln Hill Gardens is trying to accomplish off of Demphle Ave near Wyoming St. You may even consider giving them a grant of some sort to jump-start it. One of the best times to create a park is after a disaster (financial or otherwise) as many people want something to do but cannot afford to go anywhere except for maybe a park. Studies have also shown that sports and recreation opportunities can keep kids on the right path. I have spent time driving around the West side of Dayton and I cannot honestly say that I have seen a lot of opportunities there for kids to safely play. There are many abandoned homes there (near apartments where people are living now due to affordability) where they could be razed and a tennis court or a basket ball court or volley ball could be put up in view of the apartments or other nearby homes. Walkability and visibility of a park are important to its success and ultimately to safety. Not to mention that amenities such as these provide a higher standard of living. That's at least a start...then you also have to set aside money for upkeep which I have also noticed is not at its best at Dayton parks (except for maybe Riverscape). A splash pad park that is well designed with high visibility (as our planning office has noticed) will do extremely well. For housing, I'd say you should look to incentivizing developers to create affordable fourplex or duplex units closer to amenities and schools. Over by Westwood Elementary School, there is opportunity to raze some of the homes there and rebuild for families. Or, there are also opportunities on some streets off Wayne to create these "missing middle" type homes for below market rate meant for families. Creating housing in areas that are around more opportunities or creating more opportunities around housing should be key here. Please don't just throw up a large apartment development somewhere nowhere close to easy transportation, food, or parks and recreation. Studies show that people can't grow out of those situations. Besides, how does that solve de facto segregation? Small apartment building or duplexes sprinkled in areas of more opportunity with an income cap is your best bet. No large development for people to fight - the smaller apartments or duplexes may even be able to just fit into zoning as-is. People can grow with their opportunities, and then as they inevitably grow, they move on.

7/1/2021	Online Survey	In terms of sidewalk repairs, concrete grinding should be employed to repair uneven sidewalks. It has to be less costly than replacing an entire sidewalk square. When sidewalks are replaced, street trees suffer when roots are cut. Sidewalk repair/replacement should not come at the expense of the health and longevity of street trees which are important environmental and neighborhood assets. Park maintenance crews are overwhelmed. As a result, some park trash cans cannot be emptied frequently enough and some shelters are in need of more frequent cleaning and graffiti removal than can be provided. Large, vacant apartment buildings in the FROC area need to be demolished. They attract illegal dumping, squatters, vandalism, and blight all that is around them.

7/1/2021	Online Survey	I believe that revitalization in West, East, and North Dayton is imperative in providing support to low income and breaking generational poverty. Including homeowner/maintenance educational programs and programs to help repair houses. Substance abuse skyrocketed during COVID. Prevention and therapy programs for the children of Dayton who have been directly impacted by addiction. Northridge and Trotwood are still in disarray from the tornadoes. These communities deserve more help with clean up and repair for their homes. Further, this money should be poured into communities that are generally low income and not a higher income community. Higher income communities have vastly more resources and knowledge. By providing more resources to lower income communities, it can help to revitalize (not gentrify) the community and create community cohesion.

THE children of Dayton deserve more from their government. Give the children what they need. Free WiFi and places to go and gtow. Reopen rec centers or give them places to go and PLAY without hassle. Put adults in those places to supervise the young people. We have done it before and we can do it again.

6/30/2021	Online Survey	The City of Dayton needs so much work as a City. There are multiple ways this grant can be used. If we can focus on getting panhandlers to quit panhandling, we may feel safer going to certain areas. There are multiple roadways that need desperate repair. The homeless population has probably dramatically increased and poverty has increased as well. Political "pet" projects should not be funded with this grant. It needs to benefit all, not just some. Focus on the problems and don't ignore them.

6/30/2021	Online Survey	I just painted my house and it looks great. I think a fresh coat of paint on every house and business would be great for morale. Not to mention that a good coat of paint protects the building from the weather, enhancing the long-term viability of our homes, many of which are in fact historical structures. Let's make our city shine!

6/30/2021	Online Survey	Our roads are very unsafe. Potholes, narrow lanes, terrible drivers, lack of speed deterrents, lack of police. Not to mention rampant drugs, theft, safety issues in our neighborhoods, especially north main corridor. Lack of investment in areas outside of downtown. People are leaving whenever possible because they don't feel heard or secure in this city. Crime begets crime. Do something!

6/30/2021	Online Survey	As a black owner it is very difficult to acquire the proper funds to help build the dayton community. That being said the abandoned homes with noticeably over grown grass, weeds and damaged foundation should have better access at being brought, our the owners of the property should be fined. This fine should NOT give the owner more than 1 month to fix the property! Not only that as a resident of dayton I've watched 3 out of 5 schools I've attended be tore down. The other two I attended are in trotwood and Englewood. That being said we need more middle schools and high schools, I am aware of the lawsuit and deciding where the funding should be spent, it is not hard to determine as more than half of the schools in the dayton community have been demolished. Also I am aware of teachers walking out, teachers pay should be increased. I also know that is it not healthy to have only one or two hospitals for this whole community. The closest actual hospital near west dayton is 15 minutes away since good Sam was taken away, which means is someone is seriously injured and is about to die they have 15 minutes before they can actually get the proper help. To cut it short we need another hospital, not CARE FLIGHT. Another this we need are grocery stores such as Walmart and Krogers. If we had all of these businesses maybe the crime rate would not be so high, maybe people would choose to work if fast food restaurants were not their only option and maybe people would not have to travel to another city like myself to find a proper job. There is a saying where if you take away 4 things from a community you have control, that is education, hospitals, banks, and grocery stores. And dayton lacks every single one, this city is being destroyed on purpose.

6/30/2021	Online Survey	Really need to address increase policing in our neighborhoods. Speeding, willfull running of stop signs and red lights is extremely common and dangerous. Taking care of current parks needs to improve. Increase mowing frequency and management of downed trees/limbs in city property. Perhaps give funds to neighborhood associations for them to prioritize in their specific area.
6/30/2021	Online Survey	We don't need to demolish blighted/ abandoned houses. We need to expand the reap program, and provide assistance to the individuals that are willing, able, and want to participate. Further more, we need to have officers patrolling neighborhoods and cracking down harder on drug houses, and flop houses, in an effort to stop people with criminal mindsets from further destroying abandoned houses. To make it easier and more desirable for people to participate in the REAP program. Dayton's history, and the beauty that was these homes from the early 1900's are a major part of the beauty and history of the greater Dayton area. Furthermore, we don't need to continue to create more of racial divide by focusing on white/Caucasian black/brown disparities and equity. Pay attention. Both sides of Dayton are in poor condition. The east side, and the west side have pockets of poorer, more down trodden communities. We need to focus on those areas, one at a time, equally.

I live in South Park, and our main park is not in great shape. I work at EJ Brown in north-west Dayton, and parks there are deplorable. Kids and adults both NEED these local parks. Second, the blight needs to go. In South Park, there are completely hazardous structures that create major safety issues. As a teacher, I worry all the time about students venturing into the buildings in North and West Dayton.

6/30/2021	Online Survey	Dayton needs to follow in the footsteps of other large cities in terms of self sustaining gardens/backyard hens/rainwater collection/green spaces! Three hens take up less space, make less noise, and produce less waste than the average dog. Accessible public use garden plots that won't get taken down to build yet another overpriced apartment building would also be beneficial.
6/30/2021	Online Survey	The city of Dayton needs to invest in the infrastructures that make living in the city tolerable now and into the future: housing, green space, walkable streets with bike lanes, better trash and recycling services. And schools! The city does NOT need to give the police more money for military gear. In fact they should sell it. If police get a single cent it should be for retraining. You cannot claim to want to fix class and racial inequality then give money to the people who harass the poor and minorities simply by doing their jobs as currently understood. In all, plans should not focus on the interests of the urban upper class represented by South Park St. Anne's, and Oregon. ....who are going all out to get everyone to answer this survey. 6/30/2021	Online Survey	<p>We should use every dollar of the American Rescue Plan toward making those harmed made whole again and stimulate the growth of small businesses that may have been stunned or stalled during the global pandemic. One proven, simple, and cost effective way to activate spaces and make our city attractive to residents and employers is through "streetscaping." Our city has done well revitalizing vacant buildings, but has stalled in the beautification of our core. It's time to focus on our city's "look" and add interesting, large scale infrastructure. Secondly, and most certainly not least, the city's west side neighborhoods that has been historically overlooked, should receive funding to bolster their comeback that's been stifled by systemic racism. The need for streetscape is also particularly needed at the entry points of downtown. We have the ability to make downtown an alluring, bustling destination. Now that we see less desire in consumers traveling to suburban shopping centers for their goods and a desire of younger generations to live in urban cores, we should make big moves to quickly accommodate these economic interests. The more commerce happening in our core would do wonders for our tax revenues that are currently going to other municipalities. Of additional consideration- Our community leaders should take serious consideration into forming a council or other entity consisting of local, state, and federal elected officials to collaborate the needs and priorities of our community. With Congress thoughtfully restoring earmark funding, our city's advancement simply cannot afford to squander this open door for appropriations that could have a direct impact on top needs lists. It's my understanding each member of Congress may submit up to ten (10) funding requests. The City should work towards forming such a Task Force to make historic changes.</p>

6/30/2021	Online Survey	<p>I would request these funds go to improving the area so we can get back to being a diverse and beautiful place to live. We were hard hit by the opioid epidemic and then hit again by the tornados then hit again by covid. We need to attract businesses and welcome diverse commerce back to the city. Demolishing derelict buildings will allow for new developments. But the focus shouldn't fall short of the families who need housing help. Housing costs are skyrocketing and with the recent condemnation of the apartment complex in Dayton the need for affordable and sustainable housing is only growing. Housing initiatives and small business incentives and recoveries would be my focal point for these funds. So I would support any policy that could be linked to helping those two sectors. The homeless population is frankly an embarrassment to the city, not because they* are embarrassing, but because Dayton can do better for them, housing should not be so unattainable for so many.</p>

6/30/2021	Online Survey	In too many areas of the city, including both downtown and in the neighborhoods, there is too much visible physical decay. This has cascading negative consequences, discouraging people from buying homes or living in the city, discouraging business investment, contributing to a sense of hopelessness and emotional disinvestment that can lead to vandalism and both petty and serious crime. I believe it is a really urgent priority. How will we attract events to the newly refurbished convention center, for example, if the whole city looks like it's decaying? For that matter, how will we attract people from our own suburbs to work, shop, or enjoy our restaurants and entertainment venues if it looks decrepit and unsafe? I'm a downtown resident, and I love it, but I know people who hesitate or refuse to come into the city because of this.

Please allocate a good chunk of these funds for repairs to the streets. Businesses got Covid relief money, and still receive on going tax breaks. Most all initiatives benefitting older adults equally benefit residents of all ages in amenities, safety, walkable neighborhoods, transportation options, etc. Can we set up a city-wide collaboration toward this goal like Columbus has?

6/30/2021	Online Survey	City of Dayton streets are in horrible condition. I live off of Smithville Road which is need of repair/repaving. It is heavily traveled daily. The project to replace the bridge over 35 was recently completed but the street between it and E. Third St./Airway Rd. needs something done!

6/29/2021	Online Survey	I believe more bike lanes would be very welcome downtown. The link bike system is also not very good. You have to have a smart phone now to use it. There are also too many buses per Capita. There just aren't that many people riding the bus. The roads could be better, especially on Wayne Ave. Also, the wright Dunbar bridge has been out for a long time. The abandoned downtown buildings should be knocked down and the land sold to companies who would be given big tax breaks for coming to Dayton. Then they can build whatever they want. We should try to get the arts/historical buildings and tours to operate after work hours and on weekends. They're only open during work hours and people who live here can't attend.

6/29/2021	Online Survey	Ultimately, Dayton should refuse the money and insist that it pay for it's own initiatives. I'd say give funding back to the tax payers it was taken from, but these funds were just created out of thin air and will only result in more debt. Dayton is an unworthy drain on our treasury. If Dayton can't support itself, it needs to be put out of it's misery. Pull the plug on state and federal life support. Reality would soon set it in, and the socialist pipe dream dissipate like the smoke it's made of. Dayton is a parasitic corps.

6/29/2021	Online Survey	I feel like working in Dayton I see a lot of police fire and ems driving everywhere. I was privledge to work from home and those guys and girls did not. they should take priority in the ARPA. I understand small businesses need money cause they struggled too but they can make that money back. The only way we can get people into our city to help business and make money is making sure it is a safe city and that it looks nice. that being said, old rooting stuff falling from buildings is not a good look. it can hurt people. Police need to be added because at times I do not feel safe working here because I know there are not enough police officers working and not enough firefighters and EMS. I see all of them go by very often and multiple times a day for the same ambulances and fire trucks. I just hope you do not forget them because they were out front during this pandemic. along with tornadoes and shootings and riots. they do a lot of work and they should get the most money.

6/29/2021	Online Survey	High priorities would be in the areas of public safety and street repair. To address public safety, folks need be viewed as internal customers and those internal customers need to be prioritized. So many good members have left the city of dayton public safety force to join other communities where they are valued and paid better for their services. To address some of those issues, we need more staffing. It is critical to the job and even more critical to the citizens that we are serving every day. Public safety forces were excluded from the 2,000 dollar bonus even though the Dayton PD and the Dayton FD were the only ones city wide who worked through the entire pandemic. These groups worked against the odds during those tough times often putting themselves at risk of catching the virus. Take care of public safety forces. Dayton streets are known across the state, and the country, for being awful. The city vehicles will require less maintenance if the streets were improved saving millions of dollars in repairs each year.

6/29/2021	Online Survey	Specific investment in beginning and current local urban farms (specifically to minority owned businesses). 6/29/2021	Online Survey	The conditions in my neighborhood are no different than before COVID. Fact is many people left there jobs because they made more money on unemployment. If you want to make a difference then take bring big businesses back to the city and stop giving handouts to those who live off the system. Start encouraging people to not throw their trash out on the ground and have some pride in our neighborhoods. Last year a group from my church and my self cleaned up around the intersection of Cornell and Gettysburg over a weekend. By the following Wednesday it looked as if we didn't do anything. Maybe place some community dumpsters where people dump their trash. Maybe have a bulk pickup day once a week so people stop throwing their old mattresses, tv's and whatnot in these abandoned lots. Ive called 911 for my grandmother several times in the last year. A fire engine has arrived fast but I've had to wait for a ambulance to come from the other side of the city or another cities ambulance to show up every time. I'm guessing it's because the fire department is so busy. How about we add some more medic units? Hell! I seen a dayton fire truck driving through my neighborhood several times that looks older than I am. I've been a mechanic for many years and I know those big trucks are not supposed to last that long. How about we start taking care of the ones that take care of us?

6/29/2021	Online Survey	Please utilize these funds towards a new dog IN downtown since Deed's will eventually close. The number of downtown residents with dogs are facing the same issue... dwindling green space within REASONABLE walking distance. Without an off-leash green space within reasonable walking distance their will be a shift back to the suburbs where people can have yards. Deed's Point dog park acts as my "backyard" and without it/comparable replacement IN downtown, I will look to move somewhere with a yard.
6/29/2021	Online Survey	More needs to be done for seniors like myself. The highest priority needs to be removing automatic weapons form the hands of ordinary citizens and having better gun control in general - all these killings have to stop and getting weapons out of the hands of short tempered hotheads will help.
6/29/2021	Online Survey	Neighborhoods are wasting away while downtown booms based in part by huge tax abatement.
6/29/2021	Online Survey	Please tear down vacant property and put in green space. Business and homes that are vacant are an eye sore, get rid of those and you instantly improve the neighborhood look and safety.
6/29/2021	Online Survey	I think the funds should be used to work with the private sector to salvage some of the buildings that are still able to be used for housing and or businesses. The city should multiple the funds by partnering with LOCAL investors to save what is still possible. By giving some housing and business the city will be able to raise revenues to do the other items on the list We have a housing shortage and many people looking for homes and at the same time have a glut of vacant houses. If the houses stay vacant then sooner or later they will be beyond saving. The amount of money is not enough to save them all but they could be used to help local partnerships.
6/29/2021	Online Survey	The Dayton Fire Department has been cut in half over the past 20 years. Half of the apparatus has been removed from service. The dispatch center was dismantled. The training center was reduced. Fire prevention and community services slashed. Firehouses were closed and are browned out. Professional firefighters have been replaced with less skilled civilian employees. The airport Fire Department is operating with a skeleton crew. If you want to make a positive impact in this city, restore the fire department. The current operating level of the fire department is completely below national standards and at an unsafe level. The citizens are at extreme risk because of political decisions to keep reducing the fire department. Now the fire department is being asked to reduce their staffing by 25% on fire apparatus. This is ridiculous unbelievable unethical and unconscionable . Do not even think about adding additional anything in the city until you restore what you have already taken away and made things unsafe by doing so.
6/29/2021	Online Survey	I prefer the money be used to benefit ALL residents of the city. Make the community stronger and the community will lift up the small businesses. The playground equipment at Jane Newcom Park is almost 25 years old. How about a splash pad like some of the other city parks have?
6/29/2021	Online Survey	Sidewalk repair especially where city trees has caused sidewalks to lift up, and removal if large tree stumps. Also help us repair older homes in Westwood area because the pandemic has caused financial hardships for all if us and only the people having babies and not trying to work are being given all the support, does not make sense. Senior citizens played a big part in keeping thus city vital. Help should not be based on low income when it comes to improving our neighborhoods. Let's take care of these sidewalks first and help seniors who wish to remain in their homes

6/29/2021	Online Survey	Lifecycle cost is a factor that must be acknowledged. Also public works and transportation are the backbone of any city. The transportation system in the city of Dayton must be adequate to meet the needs of the low-income population striving to get to work or provide resources to their family (ie. get out of the food deserts). Also important is the viability of public utilities in a city. If the utilities are unreliable, residents that are able will leave, which will support the social economic divide seen in many urban areas in this region. Using funds to connect thriving areas with blighted areas through infrastructure and transportation will strengthen the overall urban fabric for the area.
6/29/2021	Online Survey	Community gardens improve neighborhoods and provide a good source for families. I would like to see the city begin putting community gardens in place of blight. City funds should never be racially distributed. If funds are used to support local, small businesses, it should be provided to them equally; not based on the race of the owners. Safety and crime management are high priorities in creating a space where people and children can exercise and play outside. Our kids need places to play and our parents need peace of mind.

		I believe a project or program that would restore the extra \$300/week supplement to the unemployed residents of Dayton who are losing this benefit this week due to Mike Dewine's imprudent decision would be very beneficial to every sector in Dayton and should be high priority. I believe the unemployed, especially the self employed and gig workers, who have lost most or all of their work due to Covid-19, have not had made available to them even close to an equal amount of benefits and resources that has been made available to the other sectors affected by Covid-19 . A vast majority of these unemployed Dayton residents are suffering very much financially and have no option or very few options available to help them recover. The restaurant, retail, and hospitality sectors have received the majority of the Covid-19 help that has been offered and because of that I'm very concerned about the unemployed residents of Dayton. I believe these unemployed residents are the particular sector that have been suffering the most and who in spite of that have received the least benefits and the one benefit they have been fortunate enough to obtain is now being terminated prematurely due to the impulsive decision by Mike DeWine to end that extra \$300/week benefit these residents have been collecting. This sudden termination of 12 weeks of extra benefits is going to greatly impact the unemployed of Dayton, and all of Ohio for that matter, much more than Mike DeWine could have imagined. This benefit was supposed to last until September 4th and those on unemployment expected and planned financially to receive the extra benefit until that date and I can imagine are very concerned and worried about their finances, bills, etc. I believe that a program that would restore this extra 12 weeks of the \$300/week benefit for the unemployed residents of Dayton would be of the greatest help not only to those unemployed but also to the economy of Dayton because almost all of the funds from this benefit would be spent at businesses and establishments in Dayton and this will help all of the residents of Dayton. Please consider a benefit or resource of this type for Dayton's unemployed residents. Thank You very kindly!

6/28/2021	Online Survey	I live here, I pay my taxes here, I am invested here. I know it may not be popular amongst some of my neighbors, but we need to prioritize our money on those that keep us SAFE! I called 911 3 times over the past 10 years. Each time I have called, the police were there promptly, the firemen were polite and helped out, and the EMTs helped my grandma. As I have grown here, I see golf courses and forestry trucks. Where is the money for our fireman? Why are we even considering COVID money for SIDEWALKS?? Are you kidding me? My neighborhood near UD arena doesn't even have a fire truck all the time. How is that safe? MAYOR WHALEY AND MANAGER DICKSTEIN YOU NEED TO DO BETTER FOR PEOPLE OF COLOR. GIVE US THE PROTECTION WE NEED!

6/28/2021	Online Survey	This stimulus money was intended to be used to replace tax dollars lost due to the pandemic. The intent was to keep essential services flowing to the citizens. The bulk of what you are asking for are new initiatives that will require ongoing financial commitment after the initial project is complete. This is highly irresponsible when the city is looking at a large budget deficit with the local income tax bills currently being debated at the statehouse.

6/28/2021	Online Survey	Encourage new businesses in the city itself by giving the money or tax breaks to new start businesses. This will create jobs, desire to go into the city and continuously generate tax revenue through use of new and old businesses.
6/28/2021	Online Survey	Bomberger Park is in need of a nice baseball diamond for kids to use, along with updated playground equipment. More housing for the homeless that helps them get off the street is necessary. Demolition of abandoned homes ALONG WITH the clean up of debris after demolition is very important. Crime deterrents especially for breaking and entering, theft, and vandalism of properties. This could be heavier penalties/fines, police that continue to patrol targeted areas, and other regulations that can be put in place to slow the amount of theft that happens in the business districts of Dayton (i.e. Springfield street, 3rd street/Linden area).

When most people go out to eat they go because the food is good, not because the owner is or isn't black or brown... This city need more officers on day and night to promote and secure the safety of our citizens. This is what they deserve. We have enough fire apparatus in the city, we need more medic units since over 85% of the fire departments call volume is medical. Parks, community pools are a fantastic thing to invest in. Community education specifically via police and fire and EMS personnel. Vacant homes ones that are dilapidated and beyond repair need to be demolished to improve the look and feel of our community.

6/28/2021	Online Survey	With this grant and the revenue brought in by double and tripling the property taxes I expect to see great things from the city of Dayton. Continue to put in biking infrastructure with more bike lanes and maintenance for the long awaited welcome park bike project. Money towards projects the Metro parks are working on. Money toward schools and building new buildings with air conditioning. Fixing sidewalks and roadways, like Wayne avenue and riverside. Attracting more business in general to the downtown area. When building are torn down creating green space. And PARKING would be ideal to continue to draw the suburbanites into the city for festivals, dining out. Lastly, money towards the arts And bringing back theater, for those who are sustained by donations and events that haven't happened in almost two years now.

6/28/2021	Online Survey	My highest priority is taking care of ALL of our community members by providing housing for EVERYONE. This is one of the primal needs that we all share. When people have a secure home, they will be able to fulfill other needs and participate in our local economy. So if this funding could help people that are behind on rent-or provide those renters with a realistic path to home ownership and then help people that do not have a home with a path of home ownership and perhaps a year's worth of utilities paid. Every person deserves a fighting chance to participate in our capitalistic society and it begins with having the basic need of shelter. When people own their homes they will help Revitalize their neighborhoods This is my absolute highest priority. Thank you for the opportunity to voice my opinion.

Further, the city must use some of these funds to develop a city-wide plan for the fair distribution of affordable housing throughout all neighborhoods rather than concentrate low income and subsidized housing in west Dayton. There should be a target for some reasonable percent of every neighborhood to carry its fair share of supporting the poor.

Some sort of assistance, incentives, or tax breaks to small, locally owned businesses that provide higher wages, access to insurance, tuition reimbursement, and/or 401k's. Investment in black and brown communities so that there is easier access to GOOD jobs, better resources for all levels of education, affordable housing, and safe policing. We have met many great families here who want to buy some of the nuisance properties that the city of Dayton owns, but the process of getting these properties is needlessly complex and financially punitive (having to pay back taxes or enter a lottery system for the property). We want to encourage people to purchase these nuisance properties, not make it harder. Our street has an old YMCA center that has gang tag graffiti on it, unkempt grass, and bottles--and this is across from a children's school! We really need these bad properties dealt with. Why are landlords allowed to keep these problem properties in such a bad state? Let's allow our neighbors to fix these problems by giving them the tools to do so.

This money should go to expanding the choices in affordable housing in neighborhoods that have seen the most downgrading, from 2008 on, especially in the Northwest area. It would be great if we could see financial support for new homeowners in these areas where housing values have dipped below the point of obtaining traditional financing, as well as multi unit buildings that have rent that is affordable to many of the citizens of the city. Creative use of these dollars could see families owning their own homes in areas that have been dealing with foreclosures for entirely too long.

6/28/2021	Online Survey	Give to those who will use it as an investment in our community rather than those focused on getting free money. Make them submit a plan and create accountability. Be very transparent with where the money went. Don't create a bunch of nonsensical government bureaucracy that wastes over 1/2 the money.
6/28/2021	Online Survey	The police department is in the bottom 4 for top out pay in this county and serving in the most active and dangerous areas. Also tearing down as many vacant dilapidated houses would be beneficial to neighborhoods growth and safety.
