9. Does this project include sensitive information that needs to be kept confidential?
YES NO

Project Description

10. Provide a project description that captures the maximum anticipated scope of the proposal.

It should include all contemplated actions which logically are, either geographically or functionally, a composite part of the project, regardless of the source of funding. Describe all physical aspects of the project, such as plans for multiple phases of development, size and number of buildings, and activities to be undertaken. Include details of the physical impacts of the project, including whether there will be ground disturbance. If applicable, indicate whether the project site will require acquisition or if the sponsor already has ownership. If there is not enough space below, or if there are additional documents required to supplement this review, upload them below.

11. Project Location

Provide a street address for your project and validate the address using the button below. If the project location is sensitive, you may provide an alternative address, such as the address of your city hall or nonprofit in lieu of the exact location of the project.

If the project affects a large area, such as an infrastructure or community services project, select a representative address and describe the project location in a narrative in the provided textbox.

HUD regulations at 24 CFR 58.22 prohibit grant recipients and their partners from committing or spending HUD or non-HUD funds on any activity that could have an adverse environmental impact or limit the choice of reasonable alternatives prior to completion of an environmental review once a project has become "federal". This prohibition on "choice-limiting actions" prohibits physical activity, including acquisition, rehabilitation, and construction, as well as contracting for or committing to any of these actions.

I certify that I understand the above statement and acknowledge that no work may begin on a HUD funded project before receiving notice from the City of Dayton that the environmental review is complete and the project has been granted funding.
