REQUEST FOR PROPOSAL (RFP) No. 26-006 WTWS

Professional Services for Miami Well Field South Expansion Design

Addendum No. 3

March 10, 2026

Responses to Consultants' Questions and Requests

4. Request:

Also interested in information about how far the raw water main apart from the potential wells

Response:

Upon request, we will provide an aerial map showing the existing raw water lines within the well field. If needed, we will provide more detailed information to the winning consultant after the project is awarded.

5. Question:

Will the Terran groundwater model described in the "Groundwater Fate and Transport of VOC Compounds, Miami South Well Field" report (June 27 2024) be made available to the successful consultant or are we limited to the report?

Response:

During the proposal stage, only the report is available. Following award of the project, we will determine whether the winning consultant can access the groundwater model.

6. Question:

Can you share any as-builts for the air stripper complex, and any known elevations for the targeted destination sewers?

Response:

Upon request, we will provide a link to access the as-builts for the air stripper complex. Information related to the potential destination sewers will be provided to the winning consultant after the project is awarded.
