

# ENVIRONMENTAL CONTACTS

We are providing the following contact list to help you determine the proper authority to contact regarding environmental concerns. Feel free to contact these agencies directly. If you need additional assistance contact the City of Dayton, Department of Water, Division of Environmental Management at 333-3725.

The principle responsibilities of the Division of Environmental Management are to:

- Protect the quality of ground water used to produce the drinking water for over 440,000 consumers in Dayton and Montgomery County
- Implement the Storm Water Management program to protect our rivers and streams
- Assist the City's Departments and Divisions with environmental compliance
- Assist in resolution of Dayton's citizens concerns.
